TO WHOM IT MAY CONCERN

**LEE SCHATZ**

I first met Lee Schatz a few years ago, when he designed and installed a CCTV security system for my business, Envirofert, based in Tuakau. At the time, we were experiencing vandalism to our heavy machinery. Lee's CCTV security system brought this vandalism to a stop.

In my current position as a Tuakau Council member, I have seen the results of Lee's partnership with local Police, Council and community members. As a consequence of Lee's Tuakau CCTV Project, we have successful prosecutions for assaults, breaking and entering, vehicle theft, tagging, and other anti-social behaviour.

Tuakau has one of the highest ratios for convictions versus criminal charges in the country. Police have found Lee's diligence and accuracy in gathering evidence to be pivotal in their ability to make Tuakau a safer and more secure community.

I believe Lee would be an outstanding private investigator for the public. I thoroughly recommend the granting of a private investigators licence to Lee Schatz.

Yours faithfully,

  
ROBERT KING  
FOR & ON BEHALF OF  
GARY MCGURKE.
