

Tuakau & Districts Development Association Incorporated

22 July 2008

To Whom it May Concern,

As a Business Association we have been working with Watch U for just over a year to implement a surveillance system in our CBD. This has been no small task in planning where, when, how and what system is the best for our limited budget. Consequently we are rolling out a system as funding allows with the initial installation being 9 cameras, all linked by Internet to the local police station, with a further installation increasing the number to 20.

The team at Watch U have been extremely helpful in the process, both in providing information about the system options, how they can be advanced and assisting in communicating with the Business Community about the benefits of the operation. Even through the initial teething phase of the process the Watch U team have been upfront, helpful and responsive to our needs.

Tuakau as a township is now hoping to become an example of what can be achieved with a positive and practical approach to security, following the installation of the cameras we have had numerous convictions and information leading to convictions from tagging offenses to assault.

I strongly recommend the installation of a security system such as ours and have no hesitation in recommending the Watch U team as a suitable supplier. As with all new ventures where multiple community groups are involved, it is not a simple process but we have found Watch U has stuck with us ensuring that our systems remain operational.

Please feel welcome to contact me on 09 963 0030 if I can be of further assistance.

Sincerely

Bernadette Jackson
Chairperson
Tuakau and Districts Development Association
